# MUESTRA SESGADA
JUSTIFICATION OF THE PROGRAMME

A Teaching programme is defined as the document which includes all the answers and decisions taken by the English department related to the teaching-learning process and represents a powerful tool for the teacher in order to organize their lessons.

This document will help us in planning and directing the education and it will be considered the perfect guide for every teacher.

Regarding the legal framework, this English Teaching Programme is based on the new Organic Law for improvement of Quality (LOMCE) in Education 8/2013 of 9th of December, which is the current educational law in Spain, where you can find the general objectives for Secondary Education and for the Foreign language Area. The LOE was concreted in the Royal Decree 1105/2014, 26th December which establishes the C.S.E and Bachillerato curriculum and thirdly, The Decree of our autonomous community:

The LOMCE (Ley Orgánica de la Mejora de la Calidad Educativa) is a revised version of the existing educational law called LOE (Ley Orgánica de Educación). The objectives of the LOMCE are:

- Improve knowledge of core subjects by placing greater emphasis on these subjects.

- Foreign language learning and multilingualism is a priority, because of the importance of languages in a globalized society, reinforced by the European Union’s goals for education.
  - Create more proactive citizens prepared for today’s society through an ‘interdisciplinary’ vision, as well as incorporating values.
  - Promote autonomy within schools to address specific student and family needs.
  - Implement necessary corrective measures early and reduce dropout rates through established testing.
